

Bluemix and the Internet of Things

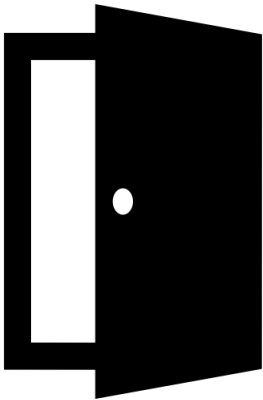

Building a cloud-based alarm system

Step 1

Send an alarm when my door is opened.

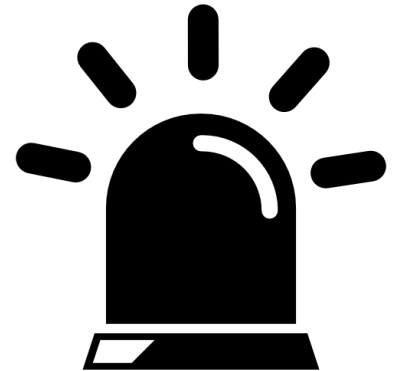

Step 1: Send an alarm when my door is opened.

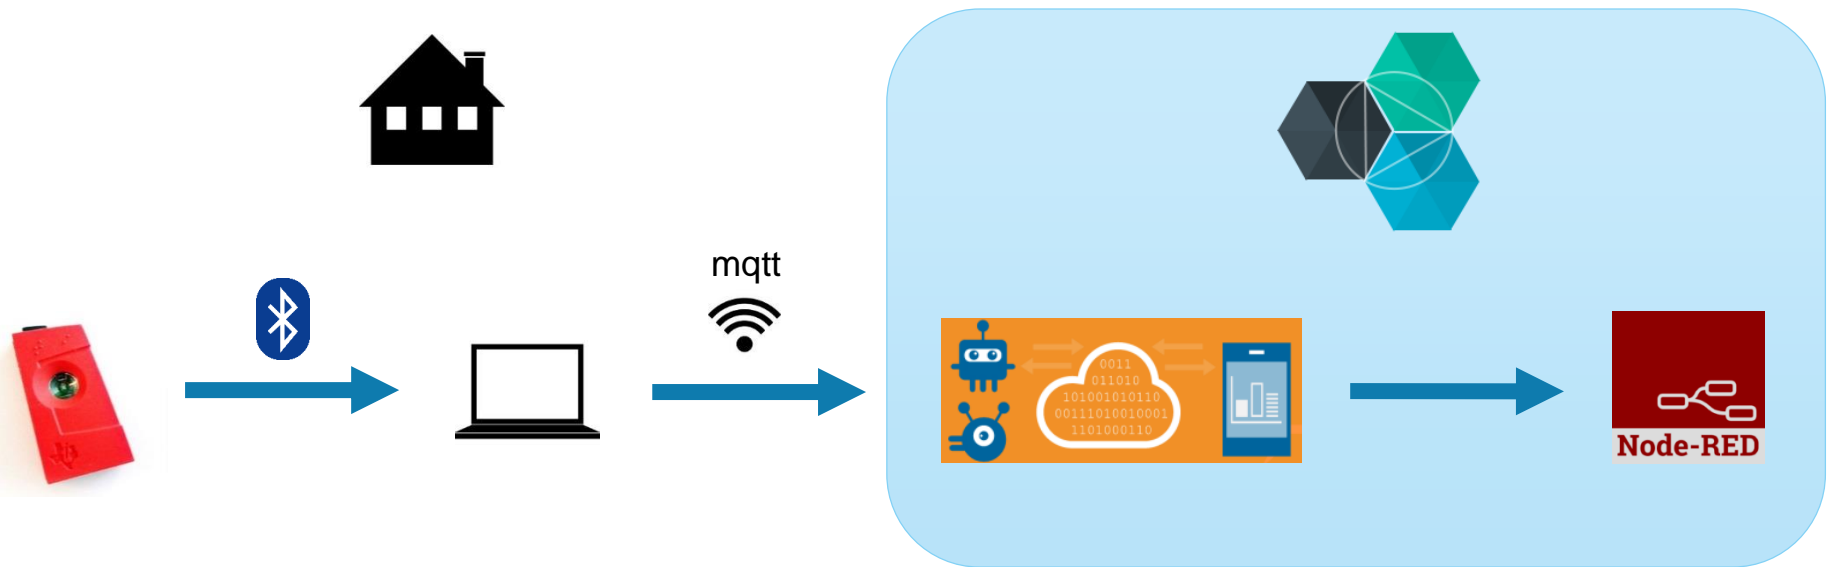

+

=

Step 1: Send an alarm when my door is opened.

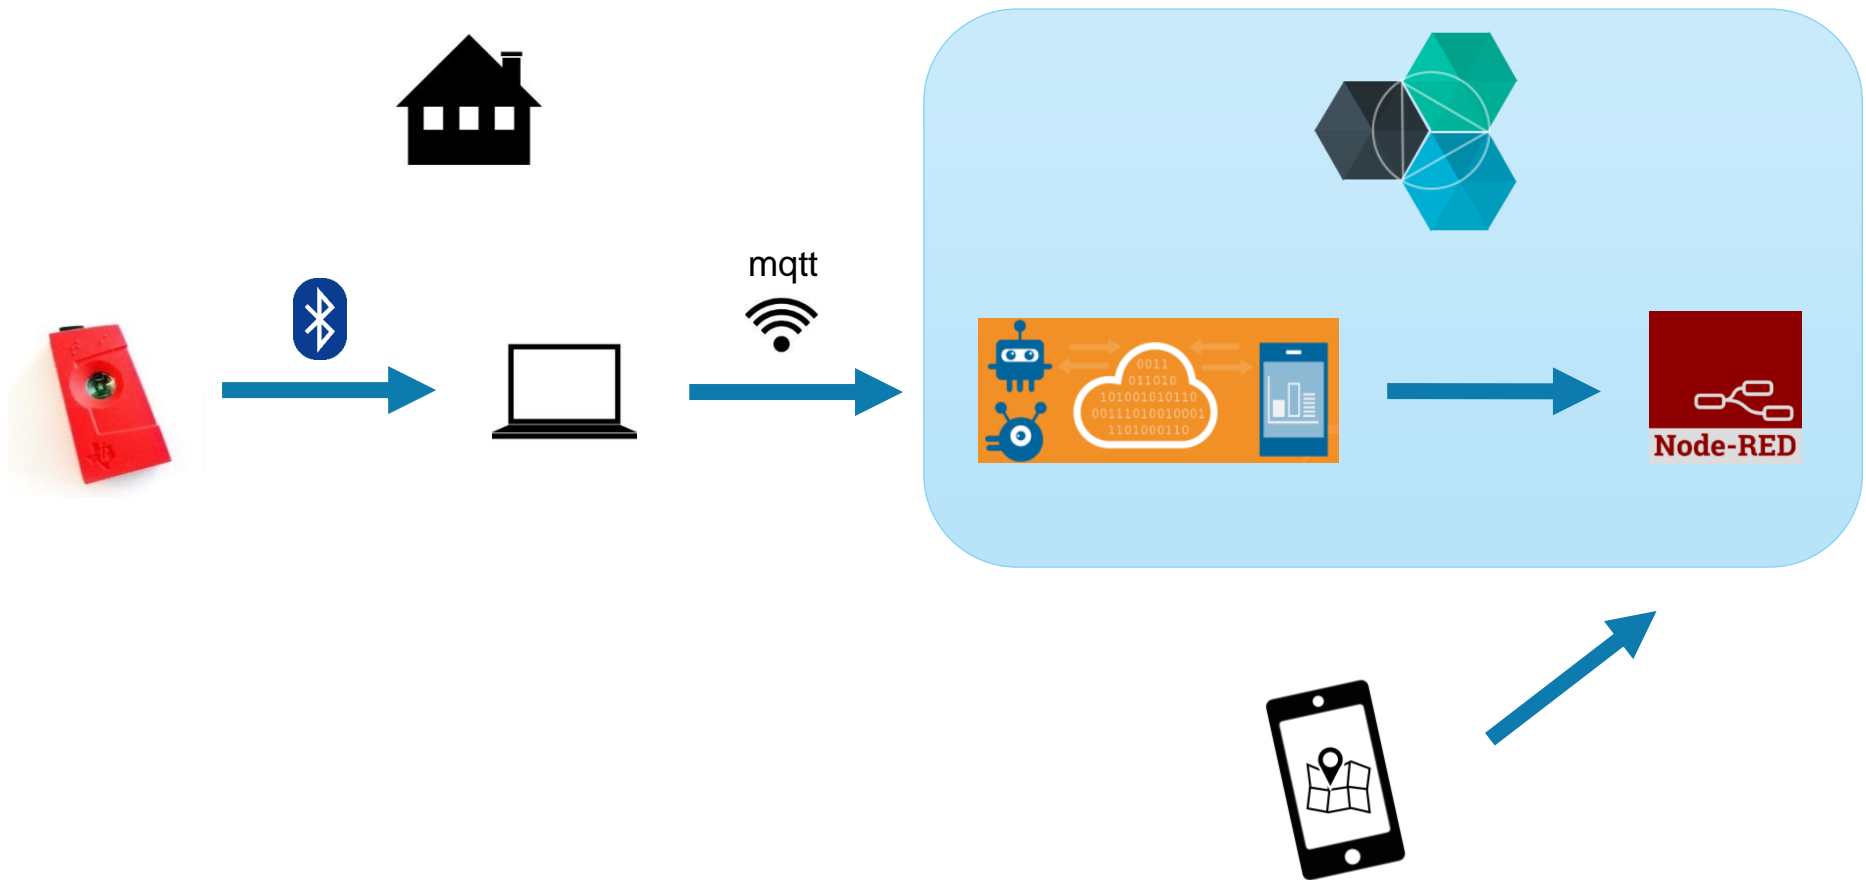

Step 2

Only send an alarm when someone else opens the door.

Step 2: Only send an alarm when someone else opens the door.

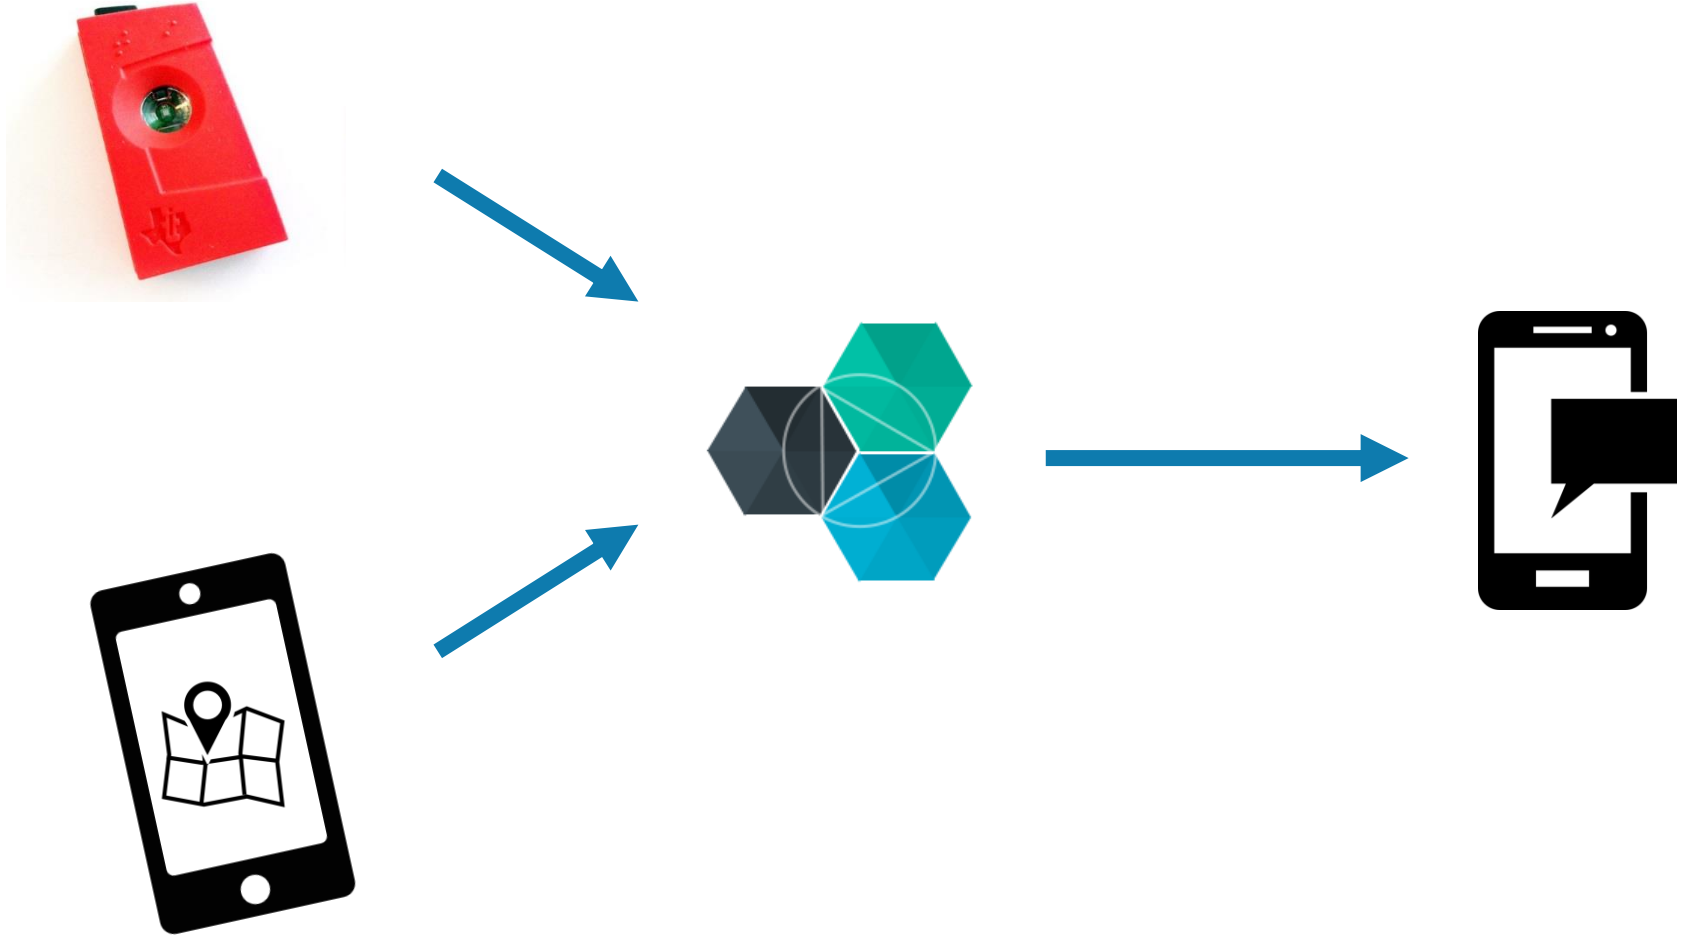

Step 2: Only send an alarm when someone else opens the door.

Step 3

Send me a text message when an alarm occurs.

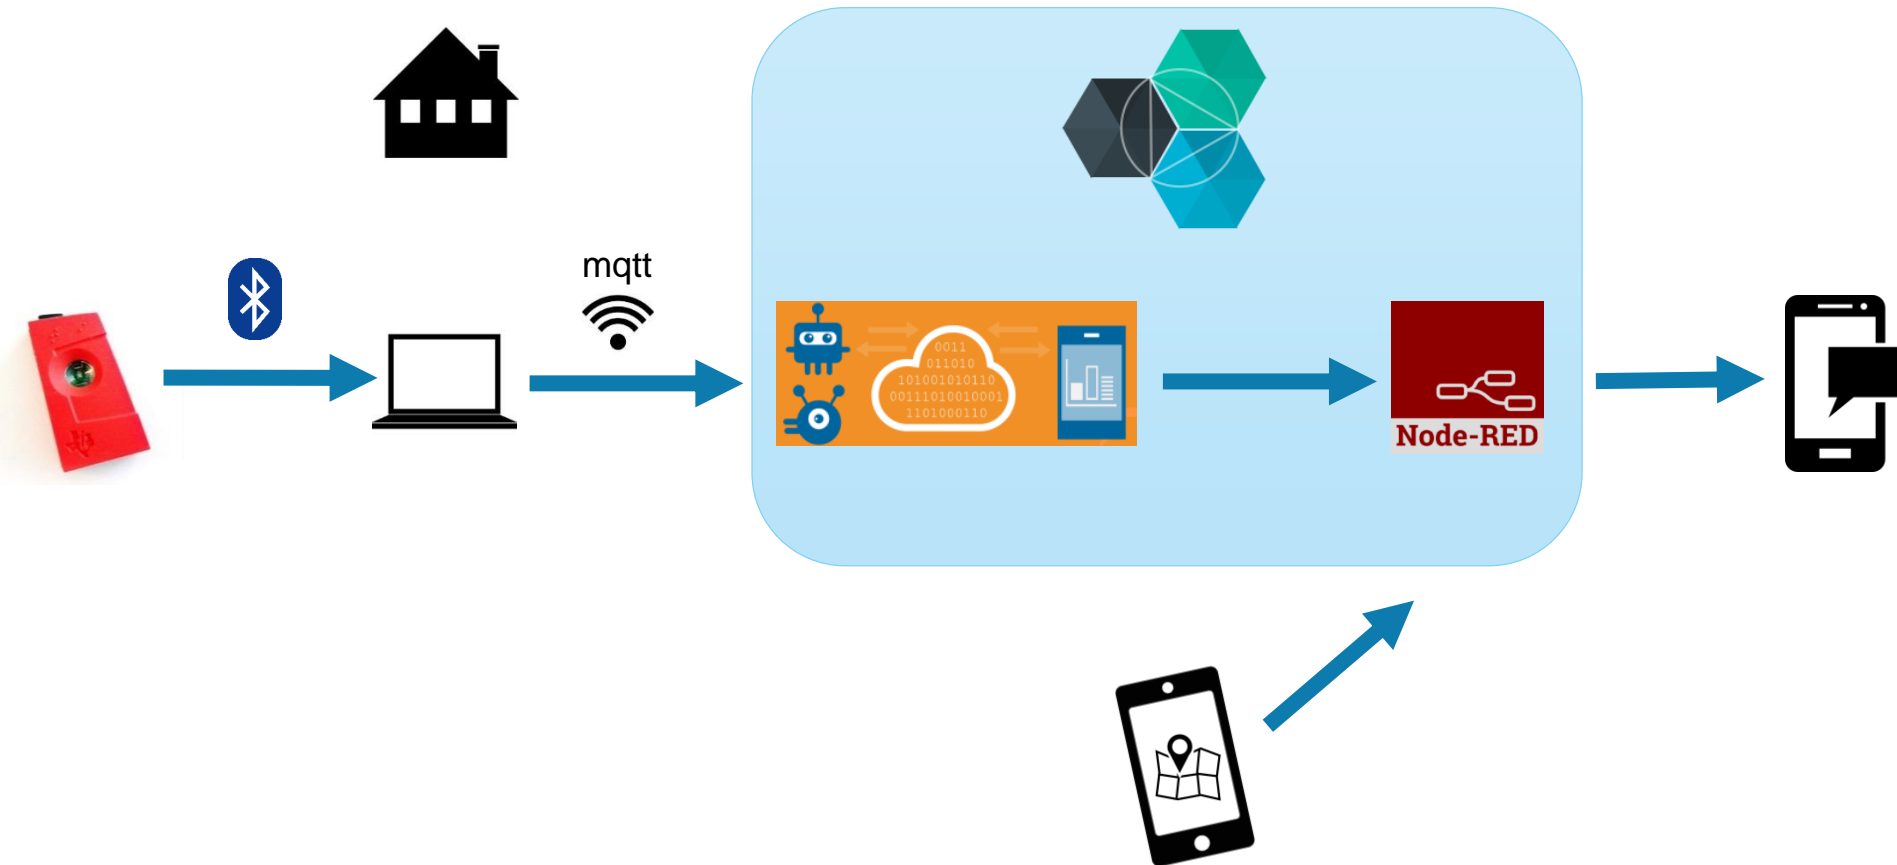

Step 3: Send me a text message when an alarm occurs.

Step 3: Send me a text message when an alarm occurs.

Step 3: Send me a text message when an alarm occurs.

Thank you for your attention!
